

# Call for Papers

**IWCM 2012**

**9<sup>th</sup> International Workshop on Compact Modeling**

**January 30 (Mon.), 2012**

**Sydney, Australia**

**Scope:**

The workshop provides an opportunity for the discussion and the presentation of advances in modeling and simulation of nano-scale devices and circuits.

**Topics:**

- Compact modeling for all kinds of devices
- Parameter extraction methodology and strategy
- Circuit simulation techniques and methods

**Abstract Submission:**

Authors should submit a camera-ready abstract with 2 to 8 pages including figures for inclusion in the Workshop Proceedings, and send the electronic file in PDF or MS-Word format to [jinhe@ime.pku.edu.cn](mailto:jinhe@ime.pku.edu.cn). Paper templates in LaTeX and Word formats are downloadable from the ASP-DAC 2012 website. Deadline for the submission is November 30th, 2011.

**Organization:**

**Chair:** J. He (Peking University, China)

**Co-Chair:** H. J. Mattausch (Hiroshima University, Japan)

**Committee members:**

- M. Chan (Hong Kong University of Science & Technology, H.K.)
- M. Miura-Mattausch (Hiroshima University, Japan)
- Y. J. Park (Seoul National University, Korea)
- Y. K. Park (Samsung Electronics, Korea)
- G. Yokomizo (STARC, Japan)
- Z. Yu (Tsinghua University, China)
- Y. Cao (Arizona State University, USA)
- J.J.Liou (University of Central Florida, USA)

**Contact:**

If you have any question, please contact [jinhe@ime.pku.edu.cn](mailto:jinhe@ime.pku.edu.cn)  
Registration is free, but RMB500 is requested for the proceedings.
